Certification Exhibit

FCC ID: Z4D173503

IC: 9973A-173503

FCC Rule Part: 15.247

IC Radio Standards Specification: RSS-210

ACS Project: 14-2023

Manufacturer: Sunbeam Products, Inc.

d/b/a Jarden Consumer Solutions

Model: 173503

User Manual

Wi-Fi Module FCC / IC Statements (Model 173503)

The WeMo SMART module is a 802.11b/g/n compatible device designed to provide communication between appliances and smart devices.

For use in appliances only

Front Page

Model: 173503
FCC ID: Z4D173503
IC: 9973A-173503

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this device not expressly approved by Sunbeam Products, Inc. d/b/a Jarden Consumer Solutions could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Conformément à la réglementation d'Industrie Canada, le présent émetteur radio peut fonctionner avec une antenne d'un type et d'un gain maximal (ou inférieur) approuvé pour l'émetteur par Industrie Canada. Dans le but de réduire les risques de brouillage radioélectrique à l'intention des autres utilisateurs, il faut choisir le type d'antenne et son gain de sorte que la puissance isotrope rayonnée équivalente (p.i.r.e.) ne dépasse pas l'intensité nécessaire à l'établissement d'une communication satisfaisante.

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

Note: this module is integrated at the factory, under direct control of Jarden Consumer Solutions, into appliances that are exempted from FCC Part 15 Subpart B, and is not user serviceable or upgradeable.
